Kingstown, St. Vincent and the Grenadines

ISOLATION OF SUSPECT COVID-19 CASE

The Ministry of Health, Wellness and the Environment wishes to inform the general public that one of the isolation transport chambers was utilized earlier today to safely transfer a patient from a private health care facility to the Kingstown District Flu Clinic for further assessment and management. While the patient does not meet all of the criteria of the case definition a COVID-19 suspect case, out of an abundance of caution, further investigations are being carried out including the specific COVID-19 test.

The Ministry of Health, Wellness and the Environment will continue to provide the public with additional information as it becomes available.

The Ministry of Health, Wellness and the Environment thanks the Vincentian public for their continued support and cooperation
